FDA Food Contact Compliance Statement:

Teflex NP Black

NOTE: This statement is made on the information provided to us by the material supplier and corresponds with our actual knowledge. BFM® fitting uses the PTFE material to manufacture our Teflex connectors, however, we cannot guarantee the suitability of the material for any given application and assume no liability in connection with the information provided below.

Teflex NP Black is a 100% Teflon Film and meets the requirements to comply with the applicable requirements of the pertinent sections of the Code of Federal Regulations (CFR) of the US Food and Drug Administration (FDA) as described below:

Section No:	Section Title:
FDA 21 CFR 177.1550	Perfluorocarbon resins used as articles or components of articles intended to contact food.
FDA 21 CFR 178.3297	Colorants for polymers used as articles or components of articles intended to contact food.

This applies to all dry food and powder product.

If you need further information on the safety of our products, please contact us.

SIGNED ON BEHALF OF BFM® GLOBAL LTD
